FINANCE & LEASING OPTIONS

0% FINANCE

Spread the cost of a new key machine with our 0% Finance option. Simple & easy. Pay a deposit, then monthly installments for 1 year, final step in the 12th month - pay the title transfer & ownership fees. Terms apply.

LEASING

Cheaper to lease a machine than buy outright!
Monthly payments over 3 years could make leasing a more affordable option than paying the full price upfront. 19% tax can be reclaimed on the total lease payments. Terms apply

Terms & Conditions of Finance and Leasing deals:

- Established Companies are those trading in excess of 3 years
- Rates Subject to Status (Homeowner required for new start Companies)
- Payment by Direct Debit
- All prices are subject to VAT
- Level of tax relief may vary between 19- 40%

CYLINDER MACHINES

JAGUAR SIMPLICITY SEMI AUTO CYLINDER KEY MACHINE

RST

A lightweight semi-automatic machine designed to accurately cut household & automotive cylinder keys.

An excellent machine, ideal for start ups, light use or as a back up machine.

- ✓ 4 way jaw system
- ✓ Spring loaded key set guide
- ✓ Transmission via timing belt

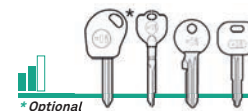

Ref	Voltage	Size	Weight	Rate
KM1524	240V	360mm x 330mm x 205mm	16kg	£567.00

RETRO EASY SEMI AUTO CYLINDER KEY MACHINES

KEYLINE

The Retro Easy is the UK's best selling cylinder machine with it's no nonsense approach to key cutting. Robust, sturdy & workhorse are the words most often used to describe this popular key machine.

- ✓ 2 way jaw system
- ✓ 4 way jaw system (Quattro)
- ✓ Safety Microswitch
- ✓ Micrometer cutting adjustment
- ✓ High speed Steel milling cutter
- ✓ Finance & Leasing: KM1103 only

Ref	Type	Voltage	Size	Weight	Rate
KM1106	2 Way	230V	370mm x 370mm x 240mm	19kg	£895.00

MORTICE MACHINES

MK2 MORTICE KEY MACHINE

RST

Designed to cut conventional lever & side ward cuts, plus flat steel, rim, mortice, double bit pin, pipe & safe key blanks, using a simple lead screw action. The MK2 remains one of the most versatile & robust mortice key cutting machines on the market.

- ✓ Duplicates lever and ward cuts
- ✓ Separate lever and ward cutters
- ✓ Robust design

Ref	Voltage	Size	Weight	Rate
KM1301	240V	400mm x 350mm x 270mm	28kg	£1,048.00

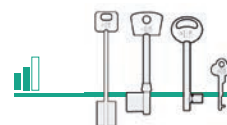

RS206 MORTICE KEY MACHINE

The RS206 is a professional Mortice key cutting machine, for single & double bitted, as well as side & bullet warded keys. It can duplicate ward, side & bullet cuts without removing the keys from the clamp. The height adjustment lever also allows the user to round the end of lever cuts, to make the operation of the key smoother in the lock.

- ✓ Cuts side and bullet wards
- ✓ Very efficient bow holder
- ✓ Cut rounding features

LASER/CAVITY MACHINES

PUNTO LASER CAVITY KEY MACHINE

The Punto duplicates Laser/Cavity & Dimple keys with ease. The work area is illuminated by an integrated worklight, allowing full visibility during operation. For added accuracy, each axis can be locked to prevent accidental movement. The Punto also features a cutter holder, which allows the safe storage of up to 6 cutters or followers.

- ✓ Duplicates laser and dimple keys
- ✓ Integrated light

Ref	Voltage	Size	Weight	Rate
KM1410	230V	220mm x 380mm x 380mm	21kg	£995.00

MUSTANG LASER CAVITY KEY MACHINE

The Mustang features a variable motor speed allowing the user to set the machine, to the type of material that is being cut, prolonging the cutter life. It also features a tilting jaw system for the replication of many modern angled dimple cuts such as the Yale Superior/Magnum Millenco section. It has greater coverage as it comes complete with several cutter & adaptors.

- ✓ Synchronised tilting vices for angle cuts
- ✓ Multi-Lock cutters included
- ✓ Supplied with Mercedes & BMW Adaptors
- ✓ Tubular key Adaptors included

Ref	Voltage	Size	Weight	Rate
KM1419	240V Variable	300mm x 300mm x 450mm	25kg	£1,255.00

FORD JAGUAR TIBBE MACHINES

FALCON TIBBE KEY MACHINE

The Falcon Tibbe allows the creation of both Ford & Jaguar Tibbe keys using its 360 degree jaw & easy dial code system.

The Falcon Tibbe includes Jaw01 for Jaguar & Ford Tibbe.

The Falcon Tibbe shares the same chassis as the Falcon Abus & Falcon Abloy meaning that you can buy additional easy fit jaws to allow you to expand your key cutting service easily.

- ✓ 360 degree jaw
- ✓ Easy dial system
- ✓ Independent brush switch

Ref	Voltage	Size	Weight	Rate
KMB003	230V	230mm x 400mm x 370mm	17kg	£1,150.00

FALCON ABUS MACHINES

FALCON ABUS KEY MACHINE

The Falcon Abus creates Abus keys using its 360 degree jaw & easy dial code system.

The Falcon Abus shares the same chassis as the Falcon Tibbe & Falcon Abloy meaning that you can buy additional easy fit jaws to allow you to expand your key cutting service easily.

- ✓ 360 degree jaw
- ✓ Easy dial system
- ✓ Independent brush switch

TRANSPONDER MACHINES

884 DECRYPTOR ULTEGRA TRANSPONDER MACHINE

The 884 Decryptor Ultegra device is Keyline's solution for the cloning of electronic keys & remote controls. Its advanced computing power, ease of use & versatility, guaranteed by easy & quick updates, make this the ideal choice for specialists in the automotive technology sector.

Clones: Philips Fixed Code, Philips Crypto ID46, Texas Fixed Code, Texas Crypto 4D, Texas 80-Bit, Megamos Fixed Code & Megamos Crypto ID48 (TKM Xtreme Kit may be required for ID48).

Optional extras available such as TKM-XTREMEKIT (For Megamos Crypto ID48 cloning) and EEPROM-XTRA-KIT (The ability to create one or more transponder key copies when the original key is not available.)

The 884 is also available with the TKM-XTREMEKIT in a 'pack', 884SP4 £1,299.00

- ✓ Capable of cloning 80% of the vehicles on the road
- ✓ Updatable
- ✓ Uses Keyline Horseshoe System
- ✓ Simple to use
- ✓ Multi-functional alphanumeric keypad
- ✓ Connectivity: RS232 & USB

Ref	Voltage	Size	Weight	Rate
TM3001E	12V	220mm x 130mm x 70mm	1kg	£999.00

TRANSPONDER MACHINES

884 DECRYPTOR MINI TRANSPONDER MACHINE

The 884 Mini has all the duplicating capabilities of the standard 884 but in a compact portable 'powerless' design. Connects to a PC via USB (Window 7 with Internet onwards), Android tablet or smartphone and iphone or ipad (Bluetooth Adaptor must be purchased for use with iphone/ipad).

Clones: Philips Fixed Code, Philips Crypto ID46, Texas Fixed Code, Texas Crypto 4D, Texas 80-Bit, Megamos Fixed Code & Megamos Crypto ID48 (TKM Xtreme kit may be required for ID48).

Optional extras available such as TKM-XTREMEKIT (For Megamos Crypto ID48 cloning) and EEPROM-XTRA-KIT (The ability to create one or more transponder key copies when the original key is not available.)

The 884 Mini is also available with the TKM-XTREMEKIT in a 'pack', 884MSP1 £799.00

- ✓ Capable of cloning 80% of the vehicles on the road
- ✓ Simple to use
- ✓ Use with Android or Smartphone
- ✓ Can now be used with iphone/ipad via Bluetooth Adaptor (sold separately)
- ✓ Portable
- ✓ Connectivity:USB

DIAGNOSTIC MACHINES

KEYDIY REMOTE MAKER

KD-X2 has all the usual KeyDIY functions and more! No tokens required. Works with PC software connected via USB for online only functions.

Ignition coil detection, check if the car is sending out a signal to fault test. Transponder Chip identification to assist in choosing the correct chip to programme. Remote Identification to remove the guess work in which one to programme.

Frequency detection, can also be used to check remote buttons are functioning correctly. Compatible with most manufacturer chips.

- ✓ Compatible with most manufacturers chip on the market e.g Handy Baby, JMD, CN. VVDI etc
- ✓ Copies 96 Bit (only) ID48 Chips
- ✓ No tokens required for use & continued free updates
- ✓ Works with a PC & via USB & Android Phone/Tablet connected via OTG or online only functions
- ✓ Transponder chip detection & Frequency Identification
- ✓ Ignition coil detection
- ✓ Connectivity: USB

SMART PRO (NEW MVP)

Smart Pro is the cutting-edge easy-to-use device for easily programming transponder keys, proximity keys and remotes and for reading the PIN codes for numerous manufacturers.

It features an intuitive touch screen user interface and incorporates the entire Advanced Diagnostics Info Quest database with over 5000 vehicle models. It is a flexible, all-in-one solution offering the user a combination of purchase options.

- ✓ Easy to use software
- ✓ 10 inch colour touch screen
- ✓ AD Info Quest - a constantly updated database
- ✓ Extensive functionality
- ✓ External Port for increased potential
- ✓ Fast programming procedures
- ✓ Includes 3 months Unlimited Token Plan, for use on the software modules that require Tokens
- ✓ 10x free to use software modules (which will never require Tokens). Includes Ford Europe & USA, General Motors, Peugeot/Citroen, Honda/Acura, Nissan, VAG, Toyota/Lexus, Suzuki, Mitsubishi and Hyundai/Kia software modules.
- ✓ Connectivity: USB

ZED-FULL IMMOBILISER DEVICE BASE KIT WITH 100 CREDITS

The Zed-Full is the most professional and unique "all in one" immobiliser device in the world. The mixture of fixed & crypto cloning, remote cloning, transponder editing, eeprom programming, and OBD key programming offers many leading solutions not available on other devices. The tool also offers a variety of purchase options that gives the greatest flexibility on outlay & coverage.

The Zed-Full is fully loaded with the full range of software to carry out every feature of the tool, now & in the future. All software updates will be loaded "free of charge".

- ✓ Cloning to many fixed & carbon transponders including ID46, 8C & some ID48, and CN2 & ZED46 for 4C, 4D & ID46
- ✓ Built in component security code reading aerial for easy scanning
- ✓ Built in frequency tester for remote keys & remote emulating system for Fiat remotes
- ✓ OBD key & remote programming including pin code reading on a huge range of vehicles
- ✓ Latest coverage of VAG vehicles including UDS systems
- ✓ Pin code reading for Peugeot & Citroen vehicles
- ✓ Recycling of used remote keys & cards
- ✓ OBD programming on 24v systems including Renault trucks
- ✓ Built in EEPROM programmer with no PC software required
- ✓ Over 200 individual immobiliser EEPROM files covered
- ✓ Connectivity: USB/Bluetooth

DIAGNOSTIC ACCESSORIES

SMART DONGLE FOR MVP PRO

The innovative Smart Dongle developed for MVP Pro testers has many new features and benefits for the automotive locksmith.

Smart Dongle is easy to use and replaces the security calculator and the current range of AD dongles with one automatic configurable dongle for all makes and models.

Previously you would need to enter the security calculator information to release the software, but this is now an automatic feature of the Smart Dongle.

Now, simply connect the Smart Dongle to your Pro tester and it will automatically configure itself for the vehicle it is connected to.

- ✓ Automatic configuration for the vehicle it is connected to
- ✓ Easy to use
- ✓ Has replaced security calculator and is in effect now one automatic configurable dongle
- ✓ Add-on services and future functionality available via built-in hardware expansion port

Ref	Rate
TM4013	£399.00

SMART AERIAL FOR MVP PRO

The Smart Aerial has been developed to be used with the Smart Dongle to provide locksmiths and diagnostic specialists with an ability to write pre-coding data and other information onto transponders found within the vehicle key.

In particular the Smart Aerial is able to pre-code Fiat and VAG transponders from the electronic memory of the vehicle.

By reading the pre-coding stored in the vehicle and writing to a blank transponder a vehicle specific transponder can be created and programmed without delay.

- ✓ Pre-codes ID46 & ID48 transponders
- ✓ Connects via Smart Dongle
- ✓ Requires key programmer
- ✓ Requires specific vehicle softwares
- ✓ Plug & play, automatically configures
- ✓ Key slot antenna frequency 125kHz

DUAL PURPOSE ELECTRONIC KEY CUTTING MACHINES

Ninja Cylinder / Laser Key Cutting Machine

Ninja Laser combines the ability to cut both Cylinder & Laser keys style keys within one machine.

The modern functional compact design makes the Ninja Laser a perfect key cutting companion in various applications. One of the highlights of the Ninja Laser is the AC Jaw that allows the clamping of most laser keys in the market.

Optional jaws are available allowing the user to expand the machines capability further such as Tibbe. The Liger software developed by Keyline stands out for its simple user interface & reliable cutting system. The Liger software receives updates through the LAN or USB ports.

- ✓ Cuts Laser & Cylinder Keys
- ✓ Portable control unit
- ✓ Optional jaws available
- ✓ Connectivity: USB / RS232

Ref	Voltage	Size	Weight	Rate
KMB007	230V	340mm x 415mm x 300mm	20kg	£5,995.00

CUT TO CODE MACHINES

MULTI PURPOSE ELECTRONIC KEY CUTTING MACHINES

Ninja Total Cylinder/Cavity/Laser Key Cutting Machine

Ninja Total is the exclusive electronic key-cutting machine that copies, decodes and codes edge cut keys and decodes and codes laser and dimple keys.

Cuts the following key types: Flat/Edge, Laser, Cruciform, Dimple, Tibbe & Simplex.

The combination of two key-cutting stations makes it possible to cut both residential and car keys, with a single machine, quickly and easily, without sacrificing quality and precision during the cutting process.

The advanced Liger Software makes Ninja Total easy to use through an intuitive user interface, supported by a strong & stable industrial console which allows the quick access to one of the most complete key databases.

Please see our Accessories section for cutters and jaws available for this machine.

* Optional

- ✓ Copies, decodes and codes edge cut keys and decodes and codes laser and dimple keys
- ✓ Versatile & complete
- ✓ Quick & performing
- ✓ Ergonomic & sturdy
- ✓ Equipped with new exclusive clamp
- ✓ Easy & intuitive
- ✓ Patented technology
- ✓ Connectivity: USB / RS232

Ninja Total Car Package

Ninja Total Car is the exclusive electronic key-cutting machine that copies, decodes and codes edge cut keys and decodes and codes laser and dimple keys.

Cuts the following key types:

Flat/Edge, Laser, Cruciform, Dimple, Tibbe, Simplex & Yale Superior/Yale Platinum*.

Includes AV12 Adaptor to cut Ford HU101TE type keys.

** This machine can only cut Yale Superior/Yale Platinum keys with the additional V043 Cutter & C24 Jaw, which come with the KMB010/A.*

The combination of two key-cutting stations makes it possible to cut both residential and car keys, with a single machine, quickly and easily, without sacrificing quality and precision during the cutting process.

The advanced Liger Software makes Ninja Total easy to use through an intuitive user interface, supported by a strong & stable industrial console which allows quick access to one of the most complete key databases.

- Copies, decodes and codes edge cut keys and decodes and codes laser and dimple keys
- Includes AV12 Adaptor for Ford FD HU101TE type keys
- Versatile & complete
- Quick & performing
- Ergonomic & sturdy
- Equipped with new exclusive clamp
- Easy & intuitive

CUT TO CODE MACHINES

DUAL PURPOSE ELECTRONIC KEY CUTTING MACHINES

Ninja Vortex Cavity/Laser Key Cutting Machine

Ninja Vortex allows the user to decode, duplicate & engrave high security dimple keys. It achieves this by utilising a combination of 3 axes.

The engraving feature allows the personalisation of metal head keys through graphic etching without the need to remove the key from the jaw, making Ninja Vortex the only complete key cutting machine for high security dimple & laser keys.

Automatic calibration ensures optimum accuracy.

The Liger software developed by Keyline stands out for its capacity to process every cutting system and receive software updates.

DUAL PURPOSE ELECTRONIC KEY CUTTING MACHINES

Versa Cavity/Laser Key Cutting Machine

The Versa is the first specialised machine for sequential decoding, cut by code of high security dimple & laser keys & graphic engraving of the metal key heads.

This is a computer-guided machine equipped with an up-to-date database containing the codes & technical parameters for optimal key cutting. Thanks to its innovative spindle, operating at 28,000 RPM, the encoding of one side of the key requires only a few seconds, thus guaranteeing exceptional results.

Cutting quality is very high and, in the case of dimple keys, a 3D cut is used, by operating the machine's 3 axes simultaneously. Versa is equipped with four standard clamps for all types of vehicle keys, and one master clamp for cylinder keys.

The equipped USB, LAN and serial ports allow easy connections to multimedia systems and networks.

CUT TO CODE MACHINES

DUAL PURPOSE ELECTRONIC KEY CUTTING MACHINES

994 Cavity/Laser Key Cutting Machine

The best key cutting machine for automotive laser keys, edge cut keys & Tibbe keys, cuts by code, by decode or by manual input of the key bittings, controlled by an innovative mobile console.

994 is controlled by a separate touch screen module, which also houses the A,B, C & D Jaws, when not in use on the machine.

The design & mechanical precision ensure that keys are replicated to an OE specification each time.

994 runs using Liger software and simplifies the most complex of operations. It's easily updatable via its various RS232, USB & LAN ports.

DUAL PURPOSE ELECTRONIC KEY CUTTING MACHINES

Gymkana 994 Cavity/Laser Key Cutting Machine

The new electronic key cutting machine for automotive laser & double sided edge cut keys. With Gymkana 994 you can provide car key cutting service everywhere, any time and with the utmost flexibility.

Thanks to its compact & ergonomic design & its external power supply, the Gymkana 994 is easily portable & can be used in a wide variety of work situations.

In addition, the fastening kit with brackets and optional rechargeable battery make it possible to cut keys on the go for mobile security professionals.

With its powerful technology, the console can considerably reduce machine start-up times. Sturdy and suitable for all work situations, the console is operated by keyline Liger Software, which is synonymous with reliability. With the new Keyline Duplicating Tool Smart App, the Gymkana 994 machine is very user-friendly, with simplified screen prompts.

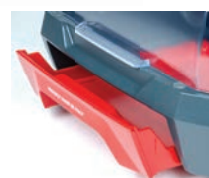

In this mode, software is always updated, machine start-up times are very fast, and its functions simplified.

Thanks to the Bluetooth connection, there's a wireless connection between Gymkana 994 and your smartphone/tablet.

Please see our Accessories section for cutters and jaws available for this machine.

- ✓ Unlimited accessibility and dynamic user interface
- ✓ Stand alone configuration with Keyline industrial console
- ✓ Mobile mode through an Android smartphone or tablet with the new Keyline Duplicating Tool Smart App
- ✓ New Universal U-Clamp
- ✓ Well-lit working area
- ✓ Cuts laser and double-sided edge cut keys
- ✓ Connectivity: USB/LAN

CUT TO CODE MACHINES

ELECTRONIC MORTICE KEY CUTTING MACHINES

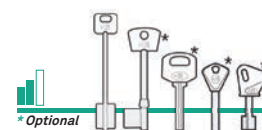

Sigma Pro Mortice Key Cutting Machine

Sigma Pro is a high-speed electronic key cutting machine for bit, double bit, pump & special, angular cut keys. The original key is read quickly through the optical lens & its image replicated onto the Sigma's 7" colour display for visual confirmation before cutting proceeds.

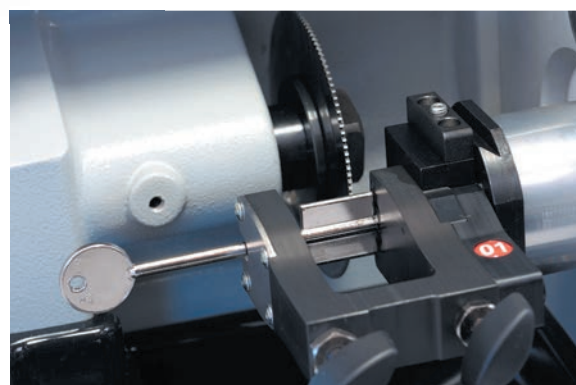

The bitting is read by the Sigma Pro & processed to show any imperfections on the original key, caused by wear or damage.

The Sigma Pro makes it possible to make several corrections to damaged keys, before the key is cut. It can also cut a wide range of keys, thanks to the additional, easily exchangeable jaws.

Its next generation Liger software includes several very useful functions, including the management of multiple users, the saving of the cut keys, the importing of customised data, an on board user manual and the possibility of downloading the updates from the net.

- ✓ 7" resistive colour touch screen
- ✓ Automatic cut rounding
- ✓ Optical reader
- ✓ Connectivity: USB

KEY READER MACHINE

CAMILLO BIANCHI READER

The Camillo Bianchi Reader is the perfect solution for identifying single or double-sided edge cut profiles and dimple profiles.

Thanks to a simple recognition system, this process is quick and easy! Just place the key in the slot and the system will show the best references of the key blanks to be duplicated and the hook where they are located in only a few seconds. There are no buttons to push, no manuals to study and no personal computers to connect to!

The Camillo Bianchi Reader is reliable, fast and complete: profile recognition is carried out by an immediate check of the compatibility of the profiles included in the selected databases, and they are displayed graphically on screen, together with the list of manufacturers and their comparative codes.

The supplied databases are organized by geographical area, so as to make it possible to select the lists concerning the user's own market. The position of key blanks can be managed from the display or from a personal computer, thanks to the import/export function of the hook database.

For full customization it is also possible to activate the innovative self-acquisition function for single and double-sided flat profiles and dimple profiles. This function makes it possible to create a custom database containing the new blank profiles acquired directly from the user. Once installed, the self-acquisition function is activated simply by identifying the profile that the user intends to add to the database, and setting its hook/location inside it. All this is done directly from the machine and with no need of a personal computer.

- ✓ Sturdy, rapid and precise
- ✓ 7" display with intuitive interface
- ✓ Database different by region
- ✓ Intuitive interface
- ✓ Customised database set-up with self acquisition function
- ✓ Automatic software updates
- ✓ Connections: 1 USB, 1 LAN
